GRANT WRITING & LOAN APPLICATIONS

Successful grants start with a detailed analysis of the probability of being awarded a grant. FARR Technologies will help applicants decide early on if they are a viable candidate for a grant or loan award.

FARR Technologies offers assistance for our clients in procuring grants and loans.

FARR Technologies has experienced and very successful grant writers in its employ. Grants in the Telecommunications field as well as educational grants have been successfully awarded to our clients.

Traditional RUS loans, Broadband Grants and Loans, as well as ARRA projects have been awarded to our valued clients as a result of the joint efforts of our clients and FARR Technologies' employees.
